1. Overview

Victorious Technologies was launched in 2009 by experienced IT professionals from renowned companies in South Africa. Our main goal is to improve ICT services and introduce new technology to all South Africans and abroad.

Who are we?

Vision Statement

To become a preferred ICT company that provides exact solution to various clients in South Africa.

Mission Statement

Victorious Technologies exists to provide good and exact solutions to everyone it touches.

The basic proposition of our business is easy, simple and achievable.

Objectives

- To create continuous communication between suppliers and clients by our mobile marketing solutions.
- To create and maintain solutions that includes loyalty in multimedia, graphics and web design.
- Reaching worldwide network of software and hardware users to Victorious Technologies through our website.
- To improve entertainment and social events by equipping them with first class technology tools.

Ownership and Shareholders

Victorious Technologies is a 100% Black owned company.

VICTORIOUS|TECHNOLOGIES
A DONE DEAL

4.1 Mobile Technology

Mobile sms marketing is a new form of marketing tool which utilizes the global communication medium of the cellular phone and sms to get your company, firm, organization or institution's. Unlike the usual way of marketing mobile marketing is simple and easy to use by any company. By its speed and simplicity, the complex requirements of clients to create unique campaigns can be met rapidly and successfully without the support of a technical specialist. Our target market for mobile technology include: Education institutions, Churches, Wholesales, Radio Stations, Gym Centres, Political organizations, Unions, Super markets, Furniture Shops, Restaurants, Hotels, Guest Houses, Entertainment Companies, Events Companies and more.

Our mobile technology include:

- Subscription services – Bible Quotes, Java Games, Poems, ringtones, wallpapers, info alerts
- campaigns and Competitions – All various competitions, promotions and funds raising from clients
- Dedications and alerts – Bulk messages and single messages
- WAP Push – link to URL address

4.2 Multimedia Design

Victorious Technologies multimedia designers are constantly striving to produce quality audios, visuals, animations and video editing to all our clients.

Our multimedia products include:

- Ringtones production
- CD and DVD printing
- Video converting – VHS to DVD, Tape to CD
- 3D modelling and design
- Video editing
- Multimedia animations and presentations

4.3 Web Design

Our web design products include:

- Web developments and design – Our clients will have to choose from three types of websites which include : Silver Website(No Database, No multimedia animations), Gold Website(Not more than 5 tables in Database, No 3D animations available) or Platinum Website(Include everything)
- Web registration – The domain name should first be checked if is available to be registered. When the domain name is not available for registration, then alternative name will be checked too. Domain Registration is a once off payment.
- Web hosting – For the website to be alive every time on the net, a hosting company is needed to host it. Affordable monthly host payments will be debited from the clients.
- Web revamping – Payments will be determined by the size of a revamp to be done by Victorious Technologies.

4.4 Graphic Design

Our creative graphic designers spend more time in defining and interpreting clients' needs and requests into artistic work. Our clients are always guided and advised on how the look and feel of the design should look like.

Our graphic designs include:

- Logo design
- Business cards design and print
- Letterheads design and print
- Posters, flyers designs and print
- Wedding, Events invitations card design and print
- Funeral cards design and print
- Calendars design and print
- Laminating and Binding
